

Finding the hidden corners

A guideline to developing considerate digital technology .

Something about the person standing in front of you...

It's me, Mary.

(Call me out if I use too much ux-designer jargon).

It's important to realise who we are, and subsequently who we are **not**.

This is a key step in becoming more empathetic.

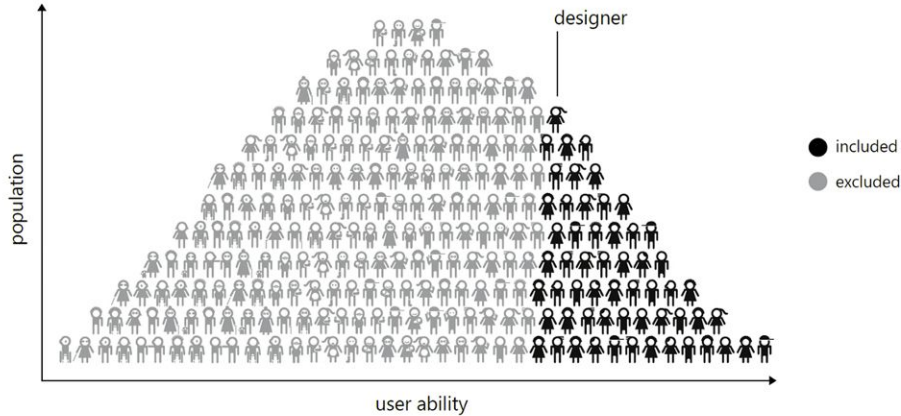

See: False consensus effect

The tendency for people to overestimate the degree to which others agree with them.

Common agreements

Why is inclusive thinking important?

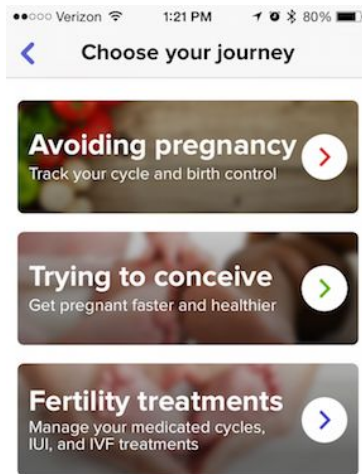

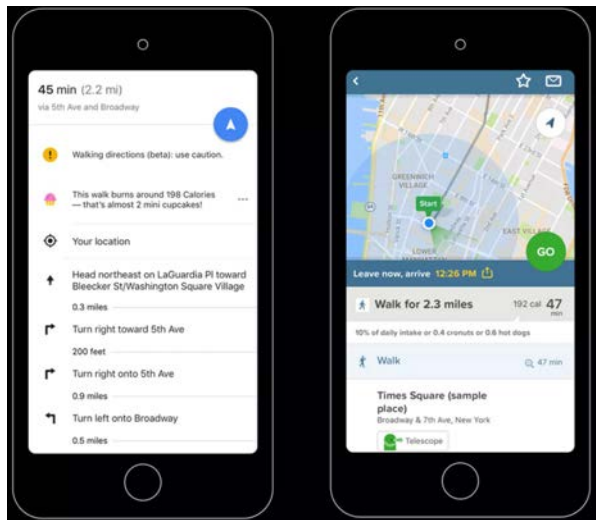

Why is inclusive thinking important?

We can't change our
workforces overnight
but we can change our
mindsets

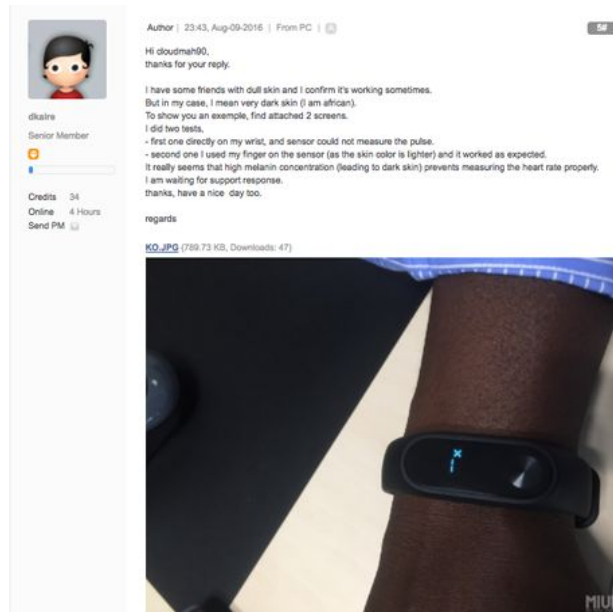

user ability

Why is inclusive thinking important?

Note: Glow is not a substitute for [NFP](#) and should be used along with other contraceptives. Glow also does not guarantee pregnancy or birth prevention.

Technology used widely now (15 min)

Emerging technology (15 min)

User's perspective (25 min)

Wrap up/ buffer time (15 min)

Topic 1 current technology

“Algorithms model certain decision flows, but once you run them, no more thought occurs... we unleash so many literally thoughtless processes on our users, on our lives, on ourselves.”

(Eric Mayer in his blog post about Inadvertent Algorithmic Cruelty)

Topic 1 current technology

Discuss:

How might we... ease unavoidable processes which are emotionally painful, such as sharing bad news?

Remembering

We hope people who love [redacted] will find comfort in visiting his profile to remember and celebrate his life.

Learn more about the [legacy contact setting](#) and [memorialized accounts](#) on Facebook.

What will happen to my Facebook account if I pass away?

[Computer Help](#) [Mobile Help](#)

[Share Article](#)

You can choose to either appoint a [legacy contact](#) to look after your memorialized account or have your account permanently deleted from Facebook.

If you don't choose to have your account permanently deleted, it will be memorialized if we become aware of your passing.

Memorialized accounts

Memorialized accounts are a place for friends and family to gather and share memories after a person has passed away. Memorialized accounts have the following key features:

- The word **Remembering** will be shown next to the person's name on their profile.
- Depending on the privacy settings of the account, friends can share memories on the memorialized timeline.
- Content the person shared (example: photos, posts) stays on Facebook and is visible on Facebook to the audience it was shared with.
- Memorialized profiles don't appear in public spaces such as in suggestions for People You May Know, ads or birthday reminders.

Topic 2 emerging technology

Task 2 emerging technology

Get into different groups of 3 or 4, making sure there is at least one person with access to a voice assistant.

- (1) Think of questions that are unusual and
- (2) try them out on the voice assistant.

Try to think situations that are not so obvious either for you or for some other groups of people like children or elderly.

Note down any interesting or especially bad responses from your virtual assistant. Think about how it should respond instead.

Emerging technology (15 min)

User's perspective (25 min)

Wrap up/ buffer time (15 min)

Task 3: Step out of your box

1. Draw one **trait change** out of the bag. Keep it hidden!
2. Get into groups of 3-4. Pick an **app/ technology** you are familiar with.
 - e.g. dating app/ fitness tracker/online banking/ google maps/ social media

Task 3: Step out of your box

3. Without revealing your trait, discuss this technology in your group and identify what **challenges** you need to consider in using it

e.g. "I can't remember passwords easily"

- Consider your physical, mental, technical and financial capabilities.

4. Think of solutions to these challenges & guess each other's traits
